Ok - thanks for the heads up. Things might get changed around. The fate of this project is out of my hands at this point. I just prepared a next steps document for upper management review. Will see what they do with it.

Also - btw - where are the Pavillion data? We already have ridiculous time lines set for us for producing research documents and we do not have all of the data! R3 is not the only data missing though.

Rick

how is the proposal coming along, heard anything?

Hi Rick,

Just an FYI on the SW PA samples scheduled for the end of July/beginning of August. I'll be at a class Aug 13-24 so as long as your schedule holds, I'll be able to get everything run before the class but if things get pushed back, there might be a problem getting them done within holding time.

Cheers,  
Jennie
